

Angusti™

Pure Lupin Oil

Lupin Oil Cosmetic Applications – BODY BUTTER

ANGUSTI™ Pure Lupin Oil offers a naturally balanced profile of linoleic and oleic fatty acids, helping to support the skin's structural integrity and reinforce a hydrated, resilient barrier. This contributes to smoother, healthier-looking skin.

This prototype body butter is a rich, oil-based formulation combining shea and coconut butter. When incorporated into the formula, lupin oil enhances spreadability and delivers lightweight nourishment, helping to seal in moisture and support the skin's natural barrier function.

Its naturally golden hue and neutral aroma make it versatile for a wide range of cosmetic applications.

By incorporating just 17% ANGUSTI™ Pure Lupin Oil below, formulators can create a unique, luxuriously textured body butter with a soft golden tone and added cosmetic and sustainability benefits.

Formulation	Quantity	
Shea Butter	65g	<ul style="list-style-type: none">• Melt all together in a double boiler or microwave, keeping the oils below 50°C.• Transfer to freezer and chill for 5-10 mins until the mixture begins to solidify and becomes opaque and cloudy.• Beat with a handheld mixer for 5 minutes, scraping down the sides as needed. Repeat this freeze (10 minutes) and mix (5 minutes) process two more times, until the mixture becomes light, smooth, and fluffy.• Scoop out into containers and store at below 32°C and away from direct light.
ANGUSTI™ Lupin Oil	20g	
Glycerine	20g	
Cocoa Butter	10g
