## Pure Lupin Oil

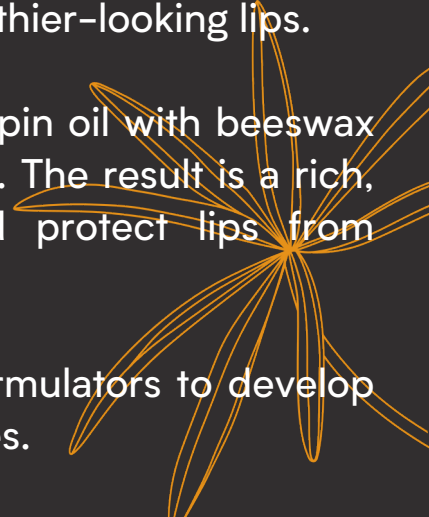

### Lupin Oil Cosmetic Applications – LIP BALM

ANGUSTI™ Pure Lupin Oil offers a naturally balanced profile of linoleic and oleic fatty acids, helping to support the skin's structural integrity and maintain a hydrated, resilient barrier. This contributes to smoother, healthier-looking lips.

This simple lip balm prototype combines shea butter and lupin oil with beeswax to create an occlusive layer that helps reduce moisture loss. The result is a rich, long-lasting balm that helps to hydrate, condition, and protect lips from environmental stressors.

Lupin oil's naturally golden hue and neutral aroma allow formulators to develop products without the need for added colourants or fragrances.

By incorporating 34% ANGUSTI™ Pure Lupin Oil, formulators can create a clean, minimalist lip balm with a warm golden tone and enhanced cosmetic and sustainability positioning.

Formulation	Quantity	
Shea Butter	24g	<ul style="list-style-type: none"><li>• Melt all together in double boiler or microwave.</li><li>• Set in containers</li><li>• Apply as needed</li></ul>
ANGUSTI™ Lupin Oil	17g	
Beeswax Pellets	9g
